NO DRIP BED PAN

ABSTRACT OF THE DISCLOSURE

According to the present invention, there is provided an apparatus for collecting, disposing, and measuring liquids including a vessel with an inner surface and an absorption mechanism disposed on the inner surface of the vessel for absorbing and collecting liquids within the vessel. The present invention additionally provides for an absorption mechanism disposed on an inner surface of a vessel for preventing the spillage of any liquids, particularly those associated with excretory waste. Finally, the present invention provides for a method of using the apparatus claimed herein to collect, dispose, and measure liquid output from a bedridden individual.
